XM Radio has been a very valuable addition to our family entertainment. When traveling it is very difficult to find music, news, talk radio, etc. that we enjoy. Once we tried XM Radio we loved it. We don't have the worry of losing a station that we may be listening to, especially if it is important news. It has also been much easier to find appropriate listening materials for our daughter with the selection of kid's channels available.

Instant Traffic & Weather is very important especially for travelers. What better way to find out what your travel conditions are when you are going from place to place. Regular radio stations play so many commercials and inevitably when you need traffic or weather it's never on and there's no way to tell when it will be on.

We respectfully urge the FCC to reject the NAB's petition 04-160 and support XM radio.

Thank you,

The Carey Family
